

# UniVario FLS-1 Ex: Ensuring reliable testing for UniVario flame detectors

UniVario FLS-1 Ex is the latest flame simulator developed for our UniVario flame detectors, combining precision and convenience. Designed to work at distances up to 9 meters, it streamlines system checks, saving time and avoiding costly interruptions. With its intuitive operation and compact design, the FLS-1 Ex ensures that testing flame detection equipment is both reliable and simple.

## Key advantages:

- **Increased efficiency:**
  - Quickly check the functionality of the UniVario IR flame detectors.
  - Operates effectively at distances up to 9 meters.
  - Verify your equipment without interrupting your business operations.
  - Suited for a wide range of industrial applications including wood, steel, automotive and chemical.
- **Advanced technology:**
  - Laser pointer ensures precise alignment with the flame detector.
  - Provides more than 8 hours of autonomy per charge.
  - Compact, lightweight and portable, with all accessories stored in a protective case.

## SPECIFICATIONS

<b>Detector compatibility:</b>	<ul style="list-style-type: none"><li>• FMX5000 IR / 3GD / Ex</li><li>• YMX5000 SE FMX / Ex</li></ul>
<b>Operational zones:</b>	<ul style="list-style-type: none"><li>• Zone 1</li><li>• Zone 2</li><li>• Zone 21</li><li>• Zone 22</li></ul>
<b>Accessories:</b>	<ul style="list-style-type: none"><li>• 2 batteries (1 spare)</li><li>• Charger</li><li>• Carry case</li></ul>
