IMPORTANT 2026 PRICING INFORMATION

To our Valued Business Partners,

Viking EMEA is facing supplier price increases, material increases, and new regulatory requirements such as the EU's Carbon Border Adjustment Mechanism (CBAM) having an impact on our cost structure. Whilst we have taken significant steps to absorb as much of these rising costs as possible through various cost-saving initiatives and improved efficiency, the ongoing impact has made a price adjustment on certain products necessary.

As a result, pricing will be adjusted by an average of:

- +3% on water products,
- +7% on grooved couplings and fittings and on welded outlets,
- +3% on foam concentrates and +5% on foam hardware,
- between +3 and +6% on detection and control products,
- +4% on gas suppression hardware and gas extinguishing agent on quotation basis

The new prices will be effective for quotations and orders dated April 1, 2026 and later. However, orders placed with Viking before this date and scheduled for delivery on or before April 30, 2026, will be honoured at current prices, subject to product availability. Later shipments will be subject to the price increase.

Quotations issued before April 1, 2026 will be honoured within their validity period, provided that shipment takes place on or before April 30, 2026. Standard Viking terms and conditions apply. Our price lists will be made available for download on our website on April 1, 2026.

We value your business, and we thank you for your continued support and for our partnership. If you have any questions, our local Viking representative will be happy to provide you any assistance.

Best regards,

Bert Schultink
